USSR

1	Ignatiev's appointment as Soviet Minister of State Security confirmed:	-
		3.3(h)(2)
	a new USSR Minister of State Security, S. D. Ignatiev, whose previous career appears to have been restricted to Communist Party affairs. There is no record of his having previously held positions in the MGB.	3.3(h)(2)
	personal request by the Yakutsk Party Secretary to Ignatiev resulted in an order to replace within a period of two days an important MGB official in Yakutsk.	3.3(h)(2)
	Comment: Since the preceding Minister Abakumov had been primarily a police official, his replacement by Ignatiev confirms and strengthens party control over the police apparatus.	
		3.3(h)(2)
2.	Order suggests stockpiling for Soviet chemical warfare defense program:	·
		3.3(h)(2)
	order which forbade the issuance of certain pharmaceuticals to the therapeutic establishments. It was requested specifically that the Health Minister authorize the Tbilisi Institute to issue belladonna extract necessary for the treatment of Parkinson's disease.	3.3(h)(2)
	Source of atropine sulfate which is the agent of choice in treatment of nerve gas poisoning. It also has a wide variety of therapeutic uses including the treatment of the nervous disease mentioned.

the Burmese have already appointed a committee of high government officials to compile a case against the Nationalists for presentation to the United Nations. Nationalist activities in Burma have been centered in Kengtung.

The Egyptian Ambassador in Washington has induced his Turkish colleague to inform Ankara that evacuation of British troops from the Suez Canal zone is the only acceptable solution to the Anglo-Egyptian crisis.

The Egyptian representative urged that Turkey use its influence with Britian, the US and France in order to promote a quick settlement of the dispute.

Insisting that no Egyptian government could agree to the presence of foreign troops in the Canal area, the Egyptian Ambassador further maintained that the departure of British troops would deprive the Communists of a very strong weapon which they have been using to foment trouble in Egypt.

Comment: Turkey has recently attempted to persuade Egypt that the establishment of the proposed Middle East Command would solve British and Egyptian differences. Turkey has been loath to become involved more directly in the Anglo-Egyptian dispute, believing that it could exert greater influence on Egypt by not identifying itself too closely with Britain.

7.	Greek	army	morale	deteriorating:

The morale and discipline of the Greek army are steadily deteriorating according to Marshal Papagos. He told the US Military Attache that if he had the authority he would dismiss four lieutenant generals and the Defense Minis-

ter. The Marshal emphasized that the US military mission must handle the direction of the Greek armed forces firmly and that it should advise the King on exactly what was happening.

Comment: These statements were apparently designed to persuade the United States to halt the Greek government's current purge of the army. The generals whose dismissal Papagos favors are the ones believed responsible for the removal of several high-ranking pro-Papagos officers during the last few weeks. Although the Marshal's report is apparently biased, there is evidence of serious political meddling with the army.

8. Yugoslavia to propose the establishment of a condominium for Trieste:

Yugoslavia, anticipating a failure of the negotiations with Italy on Trieste, will propose in the next two or three months the establishment of an Italo-Yugoslav condominium for

the Free Territory of Trieste,

Attached to this proposal will be the condition that a union of the two zones will not be a preliminary step towards Italian annexation.

The Yugoslav Government, convinced that the present Italian Government will not accept such a proposal, will reportedly advance this tactic in an effort to appease the population of Trieste and strengthen Yugoslavia's international position.

strengthen the heretofore negligible Yugoslav appeal among the strong independent groups in Trieste and to embarrass the Italian Government by forcing it to modify its present intransigent attitude or further weaken its position in Trieste.

A recent report that Marshal Tito this month will secretly receive one of the leaders of a strong independent group in Trieste may be related to this Yugoslav proposal.

able occasion may arise in connection with direct Yugoslav-US staff talks in which the Yugoslavs have professed interest.

The Greek Minister in Belgrade has informed the Embassy that he does not believe that there has been any change in Yugoslav opposition to involvement in Western political and military blocs, and that the independent Yugoslav attitude in this respect is possibly reinforced by their feeling that the immediate danger of Soviet attack is lessening.

Comment: The Turkish Foreign Minister recently informed Ambassador McGhee in Ankara that Greek and Turkish officials had agreed upon the desirability of asking the Yugoslavs to enter into secret military staff talks and would welcome US aid in obtaining Yugoslav adherence.

While the Yugoslavs would undoubtedly like to know more about Greece and Turkey's relationship with NATO, they continue to maintain that Yugoslavia cannot join such a pact or make political or military arrangements with Western powers.

10. Austria fears Polish retaliation for non-delivery of bearings:

The Austrian Government fears the consequences 3.3(h)(2) of its failure to deliver during January and February the embargo-type ball bearings called for under its trade agreement with Poland.

Calling the US-requested action "a dangerous game being played with Austria's vital coal supply," government officials warn that if Poland stops coal deliveries, it may not start them again on the present terms. The officials state that Polish coal cannot be immediately replaced with high-priced American coal.

The Austrian Foreign Office expects a retaliatory reduction in coal deliveries within two weeks.

Comment: American officials have pressed the Austrian Government to suspend delivery of embargo-type bearings to see whether Poland would actually stop coal shipments. The large stock-piles of coal in Austria and Poland's recent failure to fulfill other parts of the trade agreement appeared to offer favorable conditions for such a test.

11. Switzerland may withdraw from economic organization:

The American Minister in Bern warns that 3.3(h)(2) Switzerland will withdraw from the Organization for European Economic Cooperation if that body becomes the economic arm of NATO. Switzer-

land does not object too strongly, however, to covert cooperation between OEEC and NATO.

Comment: The Swiss have been concerned over the possibility of OEEC's subordination to NATO. They have informally indicated that in such an eventuality they would try to maintain economic cooperation with Western Europe through the Council of Europe, which coordinates closely with OEEC on economic matters.
